Join the Plurality University Network!

The Plurality University Network (U+) was created in 2018 by a gathering of artists, futurists and designers from all over the world. The mission at the core of this initiative was to enable the emergence of empowering, just and sustainable futures, by mobilizing the collective resources of imagination (art, fiction, speculation...)

Since then, it has enlarged its international network and become a hub of knowledge and experience, where arts and design meet futures, social change and sustainability. By continuously experimenting and exchanging with its community, U+ has developed open-source methods and tools that approach foresight practices in a whole new way.

In 2024, U+ is opening its membership to organizations. Come join the network of creative foresight and change. We'd love to work with you!

What is the value of U+ for your organization?

U+ creates methods and tools

- Narrative foresight workshops
- A collection of narratives about the future (Narratopias)
- An anticipation card game (the Narratopias game)
- A collaborative content sharing platform (Corpora)...

U+ creates links

- 600+ members on 6 continents.
- Online and in-person, open workshops and events.
- A bubbling community of practitioners, thinkers, artists and social innovators.

U+ explores unusual, but major, topics and issues, using original methods

- The Emerging Enterprise: the future of corporations.
- U+Zine: short explorations on the futures of food, fashion, relationships...

U+ makes futures literacy accessible to everyone

- Future Is Now: a Futures Literacy toolkit for teenagers and young adults.
- Citizens 2050: design futuring processes for those whose voices are usually absent or unheard

U+ builds knowledge

Collective Creative Practices for Transformation: an international, reflexive community of practice.

U+ co-creates experiences

- Art exhibitions: "Quand, soudainement"; "Decorama".
- Participative and creative conferences on Futures and social imaginaries (Imaginization, Plural Futures...)

What are the benefits of becoming an organizational member?

- Join an international community of creators, designers, social innovators and researchers, and invite others in your organization to take part in the activities of U+ as well.
- Take part in the discussions on the discussions on U+'s orientations and future projects. Each organizational member gets one vote in the General Assembly, plus a number of non-voting memberships with access to all its content, projects and meetings.
- Get free access to our yearly training session on creative foresight methods.
- Participate in two online meetings per year dedicated to our organizational members. During these high-paced, participative meetings, you will live an immersion in one of U+'s core projects while having the chance to share your own projects and priorities with other organizational members.
